

Go to the website www.propolis-science.org for all the scientific studies and research on it. Over 3,000 clinical studies have been done on propolis

The world GURU of propolis is Dr. Swen Neilsen MD from Denmark - he has been working with it for 38 years. Department of Pharmacology. In Europe propolis products are prescription drugs. The Natura Nectar company is owned by 3 people. 1. The bee keepers 2. JL- the Brazilian person who founded it. 3. Dr Neilsen from Denmark.

Propolis sterilizes the bee hive. The amount of compounds in it are amazing - propolis mostly comes from conifer trees such as pine, spruce and all the evergreen trees, oak, sweet gum - it is not made by the bees but is gathered by them and taken back to the hive. So it is the collected resin from the tree - the tree resins are the "immune system" of the tree and protects trees from disease and infection. The bees carry the resin back to the hive on their hind legs and line the hive with it. Bees have been doing this for 50 million years.

Brown bee propolis is the most common - and represents 98% of the propolis used in the world
Brown propolis contains different compounds. Green Propolis is 1%

Brazil has 2 other varieties of propolis

Light Green Propolis and Red Propolis

Green Propolis contains 320 different compounds

Red Propolis contains 403 compounds they have found so far - 2 recent ones vestal and neovesitol - kills even streptococcus

2 cancer drugs and 31 pharmaceutical drugs in the world are based on propolis

Pfizer has a drug for pancreatic cancer based on red propolis

Artipellin C is a chemotherapy drug made from propolis

Merck is researching propolis compounds and found that it lowered triglycerides and C-reactive protein CRP better than anything they have ever found

The newest anti-viral drug in the world for AIDS is made from Green Propolis

Propolis has systematic anti-inflammatory effects for the body comparable to turmeric

it can be used for joint health because it targets inflammation

Propolis doesn't stimulate the immune system - it balances (modulates) and supports immunity

Propolis is absorbed 20 - 30 minutes after taking it and it stays in the body for 10 to 12 hours

In Europe where many people take propolis - those who use it daily usually get sick only 1x a year. In the USA people get sick an average of 6 to 9x a year.

Propolis is hypo allergenic

Natura Nectar is owned jointly by Brazilian and a European phytopharmaceutical company from Denmark. The 3 European products are Throat Guardian, The Sinus spray, Immune Guardian and Gastro Gardian.

Extraction - alcohol extracts only get a certain percentage of the total flavonoids and leaves a waxy residue that sticks to the mouth and throat - 14 years ago this purified water centrifuge extraction method was developed using a centrifuge and hot water to get both the water soluble and fat soluble components out of the propolis. This process takes 6 hours this process can remove 100% of the bee's wax and impurities and the extraction allows the flavonoids and phenolics to be completely bio-available to the body. The product is manufactured in Ft. Lauderdale, FLA. This extraction process leaves only the actual active properties which don't taste bad like regular propolis products.

The Therapeutic Line uses mostly brown propolis and can be used by all ages of people even children 2 years old and up

Throat Guardian is one of the European Products - it is sold as a prescription medicine in Europe for over 12 years with worldwide sales in excess of \$500 million. It has 3 targeted area that it is designed for

1. Oral and Throat health - such as sore throats - kills the bacteria and viruses causing throat infections. Excellent for air travel as a protection from catching a virus or cold.
2. Dental Health - it can be sprayed on a tooth brush to treat gingivitis or can be put on dental floss for gum health. In double blind studies it showed that it kills the bacteria that causes gingivitis -
3. It supports respiratory health - the anti-inflammatory effects benefits people with asthma - it is used as a drug for asthma in Europe it opens up the lungs. (The entire cast of 60 people of the Broadway play Mama Mia uses it to prevent hoarseness of the throat and infections !)
4. It can also be sprayed on the skin for issues like MRSA infections on the skin or any skin infection as it kills bacteria on contact. It can also be sprayed on the skin for radiation therapy.

Nasal Guardian

It was designed to have the exact same pH level as the nasal passage so there is no irritation. Clinically is used to knock out bacterial and viral issues for sinusitis. The spray last 3 to 4 hours per spray. You can use it before flying to prevent infections. It also is helpful for dry nose.

Immune Guardian

It is a combination of all 3 types of propolis

Dr. Saloman found 12 compounds from propolis and used it in this formula. It has been on the market for 26 years he added 2 compounds found in Red propolis and added it to the formula 4 to 5 years ago. This again is a prescription drug in Europe. It is the only standardized propolis in the world. In Europe people take it during the winter months from October - May. 1 a day is the preventative dose. The compounds in it have anti-bacterial and anti-viral properties. Propolis is an immune modulator. It is designed to be taken every day.

If coming down with a cold or virus - take 3 to 4 capsules several times a day

Gastro Guardian

Gastro Guardian - another European product has been sold in Europe for 32 years - 1 million bottles a year sold worldwide. It took 2 years to develop it. University of Salzburg in Austria study with H Pylori with 250 people it had the ability to eliminate 97% of H Pylori in 3 to 5 days. It works on 99% - viral related - stomach problems. It knocks out the bad bacteria but doesn't affect beneficial probiotic bacteria.

Designed for Europeans who go on vacation to prevent GI tract upsets when traveling to other countries. Take 2 at breakfast and 2 at lunch.

IBS - is one of the primary things this product is used for it also supports people with Acid Reflux

Inflammation in the GI tract it can be supportive in Chron's

Anti-Viral - Anti Bacterial - , Leaky Gut support. It will work down the GI tract to support the elimination of Candida also.

Propolis stays in the bloodstream for 10 to 12 hours - 1 cap 2x a day is sufficient for most people - heavy individuals may need 2 - 2x a day

Propolis has no effect on healthy flora only the bad bacteria - in fact it acts as a prebiotic.

The Regular Propolis Products

Trio - is the basic formula - it contains 85% Brown propolis and 10% Green propolis and 5% Red propolis This can be used by anyone of all ages - 2 to 40 are the best. Give this to people who are healthy and want to maintain good health The best protection on the cellular level to keep cells healthy. It contains CAPE - Caffeic Acid Phenolic Ester. Richard Jones from the Univ of Chicago thinks this is the greatest compound in nature. 1 to 4% of brown propolis is CAPE. Anti-parasitic, anti-viral. Green Propolis contains 10 - 20% Artipellin C.

Green Propolis

The strongest anti-viral of all. 10 - 20% Artipellin C Very effective at balancing blood sugar levels.

Neuropathy in diabetes. 2 Flavonoids pass the blood brain barrier. Enhances the cell life of brain cells.

May be supportive in Alzheimers use 2 - 2x a day. Dementia and other brain related disorders.

Breast Cancer, Prostate Cancer also lowers PSA. It has been found to cut off the blood flow and nutrition to prostate cancer cells and inhibits prostate cancer cell growth - maximum dose needed is 2 - 2x a day.

Cancer support dose can go up to 3 - 3x a day. Promotes Apoptosis

Breast cancer inhibition 1 - 2x a day. Cervical Cancer support (viral cancers). In general non-hormonal cancers

Lymes Disease. 2 - 2x a day in support for Lymes

Used for supporting candida albicans infections - use with probiotics

It's anti-viral properties have been used in treating HIV

Supports detoxification of the body

Red Propolis

Red Propolis contains the highest ORAC level of any substance on the planet. It is one of the most studied natural compounds in the world.

Green is #4 and the Trio formula is #6 ORAC

Harvested in a tiny area - a 5 to 6 mile area of swamp near the atlantic ocean in the northeastern part of Brazil. It is a major anti-oxidant. It contains Isoflavones A Glycone which is 20x better absorbed than soy isoflavones. Balances hormones in men and women.

Best for former smokers - helps get air capacity increased

Cellular health support in Pancreatic Cancer it is the only product recommended by the pancreatic cancer association. , Leukemia and Lymphoma, Lung all non-hormonal cancers and Breast Cancer. Colon Polyps.

Eyesight improvement - Randy Pores who gave this talk stopped using reading glasses after taking the Red Propolis he takes 1 - 2x a day - it also helped his cardiovascular system. His triglycerides went from 150 to 59. Cholesterol numbers went to normal and borderline blood pressure 130/90 to normal

The ORAC levels and anti-inflammatory levels are so high plaque cannot stick to the arteries. His carotid arteries were completely clean.

Supports detoxification of the body.

Ultimate

New formula the first 1 a day product - each bottle is a 60 day supply it contains equal amounts of 33% Red, 33% Green and 33% Brown propolis. 1 capsule a day is the medicinal dose.
